**Tyrone Jackson**  
Hiring Manager  
e-Learning Solutions Inc.  
(987) 654-3210  
tyronejackson@e-learningsoftware.com

Dear Mr. Jackson,

At Advanced Learning Corp., I oversaw the launch of a customer success management solution to expand opportunities and drive over \$20 million in revenue growth. Also, I led the delivery of a subscription-based e-learning service to improve contract renewals by 60% across a customer base of 150 enterprise clients. I can provide valuable contributions to your team and clients in the customer success manager position.

e-Learning Software Inc.'s reputation for innovation within the education technology space draws me to apply for this position. I have a passion for adult learning and believe in your company's mission to improve the accessibility and affordability of education for users. My experience could help grow your industry reputation based on my previous achievements as a customer success manager:

- Oversaw the launch of a customer success management solution to expand opportunities across untapped market verticals, resulting in over \$20 million in new revenue
- Drove the delivery of a subscription-based e-learning service in coordination with the customer success, marketing, and product development departments to improve client retention by 60%
- Coordinated with the director of customer success to define strategic direction for the organization and create long-term roadmaps to drive account growth

I hope to speak with you further regarding how expertise in education technology can help you improve value for your customer base. Feel free to contact me via phone or email at your convenience. I appreciate your time and consideration.

Sincerely,
