Martha Simmons
Hiring Manager
Advanced AI Inc.
(987) 654-3210
martha@advancedai.com

Dear Ms. Simmons,

During my summer internship with Apple, I supported the development of artificial intelligence (AI) and machine learning solutions for self-driving vehicles. I also collaborated with diverse teams of data science and software engineering staff to execute complex projects. My expertise in data science will allow me to deliver valuable contributions to your company as the new computer science intern.

Advanced AI Inc. has a strong reputation for disrupting stagnant markets by delivering world-class machine learning technology. This resonates with me as a creative professional passionate about creating and developing technology solutions. I am confident that I can create value for your organization based on the following achievements from my career:

- Collaborated with software engineering and product development teams to develop product features for AI and machine learning technology for the automotive industry
- Conducted complex coding in Python and utilized knowledge of deep learning to support projects
- Utilized knowledge of Big Data to create complex data models and identify statistical patterns

I hope to speak with you further regarding how my background in machine learning and AI can benefit Advanced AI Inc. You can contact me for additional information at your earliest convenience. Thank you for your time and consideration.

Sincerely,
