[month, day, year]

Dear Ms. Alvarez:

During my precept placement at Saint Francis Memorial Hospital, I received a personal letter of thanks from a patient for spotting a potentially life-threatening situation in the early stages. My clinical knowledge and quick thinking allowed me to alert the supervising doctor, which contributed to saving the patient's life. I am excited to apply the same clinical rigor as a nurse at the UCSF Medical Center.

UCSF's commitment to providing cutting-edge patient care using innovative research and technology excites me as a newly qualified nurse. My ability to deliver compassionate, patient-centered care would be a strong asset to your team based on my recent accomplishments:

- Achieved 98% positive patient feedback scores during precept placement and received consistent scores of over 90% during theoretical and practical assessments
- Conducted patient assessments, collected medical history, and performed a variety of medical testing, including X-rays, CT scans, MRIs, and blood testing
- Interfaced effectively with diverse patient populations and developed treatment plans in alignment with emotional, spiritual, and physical needs

I'd like to set up an interview to discuss how my clinical knowledge can drive positive outcomes for patients at UCSF Medical Center. Please feel free to contact me for any additional questions you may have regarding my background. Thank you for your time and consideration.

Best regards,

Jasmine Brown
