[month, day, year]

Dear Ms. Witt,

Last year, I collaborated with two colleagues to create the color concepts for one of the top five animated films of the year. My supervisors praised my team's use of paintings and marker sketches to produce a cohesive scheme. I am excited to demonstrate these skills as a story artist at Skydance Animation.

As an innovative creator with more than two years of experience in the animation industry, Skydance Animation's commitment to creating incredible visuals by leveraging cutting-edge technology appeals to me. My recent accomplishments show that I have the technical and creative abilities to excel on your team. They include:

- Being selected out of 25 story artists to create a range of facial expressions for the main character of a feature film
- Mentoring three student interns to improve their understanding of storyboarding and composition
- Receiving praise five times during performance reviews for my exceptional work ethic and productivity

I would love to meet to discuss how I can help your organization continue its reputation as an industry leader. Please get in touch to arrange a time and date.

Sincerely,

Tyesha Stack
