[month, day, year]

Dear Ms. Swartz,

In my most recent role, I was responsible for the development and entire life cycle of web applications and product features, optimizing UX, which contributed to a 30% increase in revenue over two years. My expertise in e-commerce web development would allow me to deliver valuable contributions to your organization in the web developer position.

Green Space Tech's reputation as an industry leader in e-commerce solutions is what draws me to apply for this opportunity. With over seven years of experience in web development, my technical abilities would be a great match for your team. Some of my recent achievements include:

- Analyzed customer traffic results and optimized web architecture, which reduced cart abandonment by 40% and generated a 30% sales increase
- Led a team of five web developers to design and implement web applications for e-commerce clients, which contributed to over \$1.2 million in annual recurring revenue

- Developed and launched over 30 new features per year, resulting in client satisfaction of 97%

I would like to schedule an interview to provide additional insights into how my experience in e-commerce could help maximize value for your clients. You may contact me via phone or email at your convenience. I appreciate your time and consideration.

Best regards,

Melissa Anderson
