[month, day, year]

Dear Mr. Johnson,

As a financial analyst intern at Seattle Investments, I had the opportunity to work with a team of financial analysts to evaluate financial data for potential acquisitions. This experience allowed me to develop expertise in investment strategy and market analysis, making me an ideal candidate for the financial analyst position with your organization.

Fidelity's reputation for challenging the status quo and driving innovation resonates with me as a business professional. I believe I can bring a fresh perspective to Fidelity based on some of my early career experiences:

- Supported the financial analysts in evaluating company financials and determining risk factors for potential acquisitions, which included conducting business modeling
- Participated in meetings with the finance team and contributed to presentations outlining financial data on the growth potential of businesses
- Received coaching and mentorship from seasoned financial analysts and expanded knowledge of investment strategies and risk management

I hope to schedule an interview with you to provide more insights into how my financial analysis experience can aid your organization. You can contact me at your convenience with any questions you have about my background. I appreciate your consideration.

Best regards,

Allison Rosenberg
