[month, day, year]

Dear Mr. Smith,

As a physical therapist assistant at Nashville Rehab Center, I implemented therapeutic treatment plans for patients in collaboration with licensed physical therapists. Our diligence and commitment to excellence played an enormous role in improving outcomes and quality of life for our clients. I hope to bring the same level of success to Nashville Physical Therapy Partners as the new physical therapy assistant.

Your organization's reputation for providing empathetic care is one that strongly resonates with me as a healthcare professional. I believe that I can help your team continue to deliver quality care to patients based on the following achievements from my career:

- Coordinated with physical therapists and physical therapy aides to design, tailor, and deliver customized physical therapy treatment plans for patients based on individual needs
- Created detailed documentation on patient treatment response, analyzed data, and reported findings to licensed physical therapists to evaluate and alter treatment regimen
- Provided training to patients in the use of the equipment and orthopedic braces

I look forward to continuing our discussion and providing more insights into how my background in physical therapy can aid your organization. You can contact me for an interview or additional information via phone or email at your convenience.

Sincerely,  
Amy Tam
