Dear Ms. Rogers,

As you can see from my attached resume, I have over 10 years of experience providing physical therapy services to improve daily life for my patients. As a physical therapist assistant at New England Therapy Partners, I supported strategic initiatives to record and evaluate patient data to enhance the quality of treatment for our clients. I am confident that my unique background in refining treatment plans will help to improve patient outcomes for your organization.

I am intrigued by Boston Physical Therapy Center's long-standing reputation for excellence and quality patient care. I believe that I can help you continue to grow this reputation based on the following achievements from my professional background:

- Utilized clinical tools to record, monitor, and track patient treatment responses, evaluated findings with the physical therapy team, and coordinated with therapists to refine evidence-based treatment methods for clients, resulting in a 25% improvement in positive patient outcomes
- Evaluated range-of-motion, pain levels, and physical limitations with licensed physical therapists to ensure safe patient discharge
- Provided mentorship and coaching to graduate students and monitored performance during treatment regimens

I look forward to scheduling an interview to tell you more about how my background in refining treatment plans can help improve patient outcomes. Feel free to contact me with any additional questions you may have at your earliest convenience. Thank you for your time.

Sincerely,
Arthur Maxwell
