[month, day, year]

Dear Ms. Roberts:

During my recent years as a surgical technologist, I've had the honor to assist with some of the more complicated procedures at a major hospital. I'm very interested in bringing my expertise to your healthcare facility.

Your request for a surgical technologist with deep knowledge and experience aligns with my background, as surgeons have handpicked me to support complex procedures, including open-heart surgery, lung transplants, and liver transplants. Through these experiences, I've demonstrated:

- Attentiveness to the specific OR preparations and setup preferred by different surgeons
- Meticulous preparation of sterile equipment, supplies, tools, and drapes needed for invasive surgery
- Overall calm and alertness in a high-pressure OR setting

This is just a sample of the strengths I offer. I would appreciate the chance to discuss further with you how I would excel as a surgical technologist at your hospital. Please call or email me by the contact information above to schedule an interview. I appreciate your time and look forward to possibly hearing from you soon.

Sincerely,
Cameron Malfara
